

who have recorded and documented achievements of Hispanic families in East Chicago and the Indiana Harbor Region. The Community Organization Award was presented to the Hammond Hispanic Community Committee. Juan Andrade, Jr. earned the Cesar Chavez Award for co-founding the Midwest-Northeast Voter Registration Education Project. Juan was also recently named one of the "100 Most Influential Hispanics in America" by the Hispanic Business Magazine.

Mr. Speaker, I ask you and my other distinguished colleagues to join me in applauding all of the award recipients chosen by the Hispanic Coordinating Council. I feel that all of the participants are most deserving of the honors that were bestowed upon them. Moreover, I would like to commend the Hispanic Coordinating Council, its President, Ben Luna, and all of the Council members for committing themselves to preserving their culture. It is my privilege to commend them on their achievements.

25TH ANNIVERSARY OF GAY AND  
LESBIAN ACTIVIST ALLIANCE OF  
WASHINGTON, DC

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 16, 1996*

Ms. NORTON. Mr. Speaker, Tuesday, April 16, 1996, marks the 25th anniversary of the Gay and Lesbian Activist Alliance [GLAA]. GLAA is the oldest consistently active lesbian and gay political and civil rights organization in the United States. I am proud to represent GLAA in Congress and to count its members among my friends.

Since its founding in 1971, GLAA has remained a nonpartisan organization and a consistent force advocating the civil and political rights of the lesbian and gay people in Washington, DC, and across the Nation. GLAA has played a pivotal role in establishing a ban on discrimination against lesbian and gay public schoolteachers in Washington, DC, the first in the Nation. Its efforts helped lead to the passage of DC's Human Rights Act, the founding of the Civilian Complaint Review Board, the reform of the District's sodomy statute, and the enactment of DC's domestic partnership law.

GLAA's work with elected officials in Washington, DC, has resulted in more effective AIDS prevention programs targeted to the public schools, to the prisons, to the homeless, and to underserved populations in the Nation's Capital. The alliance's tireless advocacy on behalf of persons living with AIDS increased local funding for AIDS services and programs.

I hope my fellow Members will join me in congratulating the Gay and Lesbian Activist Alliance on its 25th anniversary. I wish them every success in their future endeavors.

TRIBUTE TO DR. JAMES J.  
FADULE, JR.

HON. WILLIAM J. MARTINI

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 16, 1996*

Mr. MARTINI. Mr. Speaker, I rise today to pay tribute to a very special individual from the Eighth Congressional District of New Jersey.

Dr. James J. Fadule, Jr. has served as superintendent of the Nutley Public Schools for the past 18 years and has set the standard for pedagogical excellence.

"What should I be when I grow up?" is a question many young people ask when they are in school. Dr. Fadule has changed the premise of the question by encouraging students to ask "What should be my work in the world?" This is not a question about a paycheck, but a question about life.

The work of Dr. Fadule's life has been to push students and teachers to expand their energies for the sake of achieving something special. Work in this intrinsic sense is not what we do for a living but what we do with our living.

Some of life's greatest joys come from the work of one's life. Indeed, those who have neglected the joy of work, of a job well done, have lost something very meaningful. Thank you, Dr. James Fadule for your life's work—I am certain that as you begin your retirement you will continue to encourage, teach, and appreciate others in all that you do.

THE ENVIRONMENT

HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 16, 1996*

Ms. PELOSI. Mr. Speaker, as we approach the 26th anniversary of the first Earth Day next Monday, I would like to make the following observations about the 104th Congress.

The 104th Congress came to Washington with an aggressive, anti-environment agenda promoted largely by industry and special interest groups who were determined to turn back 25 years of progress to protect public health, safety, and the environment.

The budget cuts proposed by the Gingrich Congress for the Department of the Interior and the Environmental Protection Agency are aimed at the heart of our Nation's environmental protection. The two departments with the greatest environmental authority have become the prime targets in the current attack on the environment.

The proposed cut in funding for the EPA is 21 percent below last year's level, which would seriously affect EPA's enforcement of clean air, clean water, and safe drinking water laws. The Interior appropriations bill included provisions to open Alaska's Tongass National Forest to increased logging and continue the moratorium on listing new endangered species.

The funding for protection of our Nation's wetlands, endangered species, forests, and public lands must not be sacrificed in favor of short-term profits for miners, grazers, and developers. Programs to protect our Nation's water and air should not be held hostage to

budget antics that have left these primary environmental agencies limping through the 1996 fiscal year with only a fraction of the funding needed to function.

The impacts of Republican cuts to the EPA include:

Weakened enforcement of environmental laws—including a 40-percent reduction in health and safety inspections of industrial facilities;

Delayed new standards to protect drinking water—including tap water standards for pollutants like cryptosporidium, which killed 100 people in Milwaukee in 1993;

Delayed new and ongoing cleanups at toxic waste sites—start of new construction halted at 68 sites; pace of cleanup slowed at 400 sites;

Rolled back community right-to-know information about toxic chemicals;

Created barriers to developing new controls to protect rivers and streams from industrial water pollutants;

Delayed approving pesticides with lower health risks as a safer alternative for farmers;

Delayed new standards for toxic industrial air pollutants;

Delayed review of air pollution standards to ensure adequate health protection; and

Delayed studies on how toxic chemicals may impair reproductive development and studies on how pollution affects high-risk populations.

These are just some of the effects of the cuts to EPA funding. I have not even listed the serious impacts of spending cuts on the Department of the Interior.

I will conclude with two observations. First, scientists say you cannot separate personal health from the health of our environment. Pollution prevention equals disease prevention. These foolish cuts are reducing our Nation's investment in public health. It is false economy to cut back on enforcement of clean air and clean water. How sad that 26 years after the first Earth Day and a generation of fighting pollution, the Republicans are choosing to dismantle environmental programs.

Second, I will call attention to a report on environmental protection by the California State Senate. The press reports, "Contrary to popular belief, environmental regulations are not a major cause of job losses and declining economic performance."

The Senate report concludes that environmental laws are not a major cause for the relocation of business to other States or countries. According to the report, more jobs are lost from leveraged buyouts and mergers than from controlling pollution.

The American people have the answer—they want a safe and healthy environment. We should follow their lead, and we should live up to their expectations that the Federal Government will ensure their health and safety at all levels. We should remember that every day of every year.

H.R. 3173—THE CONSUMER  
PRODUCTS SAFE TESTING ACT

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 16, 1996*

Mr. LANTOS. Mr. Speaker, I rise today to call to the attention of my colleagues the
